

## Model Insurer Asia Case Studies of Effective Technology Usage in Insurance: 2011-2014

# OVERVIEW

Every year, Celent recognizes excellence in insurance technology in the Asia-Pacific region through our **Model Insurer Asia Awards**. The Model Insurer Asia Awards are designed to try to answer the deceptively simple question:

*What would it look like for an insurer to do everything right with today's technology?*

The Model Insurer Asia Awards recognize insurers' effective use of technology in specific areas. Model Insurers have implemented IT programs that epitomize best practices for technology projects and stand out in each of the Model Insurer themes including:

- Core and Legacy System Transformation.
- Data Mastery and Analytics.
- Digital.
- Innovation.
- Noncore System Implementation Best Practices.

In general, they represent the way things should be done.
